Youngsters are invited to experience creative dance workshops inspired by the themes of Matthew Bourne's Swan Lake when the production tours to Milton Keynes Theatre next week.

The venue will host two dance workshops delivered by Matthew Bourne's New Adventures company on Saturday, February 2.

Children aged nine-12 years can participate in the first session from 10am until 11.30am, while those aged 13-16 years can attend a second session from midday until 1.30pm.

Both workshops are open to individuals of all abilities and will be led by two New Adventures dance artists.

Youngsters can look forward to exploring choreographer Sir Matthew Bourne's unique storytelling style of dance theatre using fun and creative games and exercises. They will also enjoy oppor-

Experience: New Adventures will provide workshops based on Matthew Bourne's Swan Lake at MK Theatre.

tunities to experiment with choreographing their own movement.

Matthew Bourne's Swan

Lake, which runs at the theatre from Tuesday, January 29, until Saturday, February 2, returns with a fresh look for the 21st century. Collecting over 30 international accolades including an Olivier Award in the UK and three Tonys on

Broadway, Matthew Bourne's powerful interpretation of Tchaikovsky's masterpiece is a passionate and contemporary Swan Lake for our times.

Pupils earn top marks at Camp Amazon

A group of primary school pupils are feeling inspired about the opportunities that STEM subjects can lead to after their visit to Camp Amazon.

Amazon's Milton Keynes fulfilment centre welcomed pupils from Swallowfield Lower School for a whole day of educational fun, which included a behind-the-scenes tour and a Science, Technology, Engineering and Maths (STEM) based workshop.

The STEM workshop simulated a day in the life of an Amazon fulfilment centre and gave pupils an insight into how STEM subjects can provide the skills and knowledge to tackle a variety of tasks. Helen Woodman, senior teacher at Swallowfield Lower School, said: "This was a fantastic opportunity for our students to learn and challenge themselves to apply their knowledge to real-life scenarios."

"I am sure our students will be talking about the day's activities for months to come."
